

## No Nurse on the Premises

I understand that there is no nurse on the premises while my child is receiving speech-language therapy services. If my child has a chronic medical problem then I will stay on the premises while services are being conducted. If I leave the premises, I understand that any emergencies may result in conventional first-aid procedures and/ or contacting an emergency medical vehicle. I will inform the speech-language pathologist of any specific problems in regard to emergency procedures. If I choose to leave the premises, I will not hold the practitioner liable for any unforeseen difficulties, which may arise as a result of an emergency situation.
